the army during the war of the rebellion, is a thoroughly qualified Physician of extensive ex-perience in Medicine and Survery. He has e-voted many years to the study and treatment of disease which has baffied the best Medical men of America, and now rams as pre-emment in the medical profession. Some of the diseases which he treats with surprising results are ap-pended below:

DISEASES OF MANHOOD -Young

fering from nervous deadity, from any cause whatsoever, esp cially from youthful errors and indiscretions, troducing dizaness, loss of memory, visulity and energy, emissions, tired, discontented feeling, in ligestion, paparation of the heart, uranary troubles and many other symptoms nat necessary to mention here, should no longer delay in seeking proper relief. Your trouble may be in a first stage. Remember it is approaching the last, and if you continue to neglect it, the time must come when you will be past human ad. We guarantee to restore all such cases in a viry short time to perfect health and enjoyment of life.

MIDDLE-AGED MEN—There are suffering from weak backs, frequent urination.

MIDDLE-AGED MICN many who are suffering from weak backs, frequent urthation and sediment in urine, accompanied by loss of vigor and sexual power and an impairment of the general health. Meny le of this difficulty lemerant of the cause, when is the second stage of a minat weakness. We guarance a perfect our in all such cases and a permanent restoration of the genitourinary organs. Blood, skin and all private disease a we positively cure in the sit riest possible time without meleury or injurious drugs.

sh riest possible time without mercury or injuri us drugs.

RUP 1 UKE drocede and all swellings and Tenderness queckly cured without pain or detention from bus ness.

LADIES—who may be suffering from any LADIES—who may be suffering from any to your sex, sue as persisten heamenles, painful menstruations, di-placements, e.c., do not give up in d spair, even if you have heretofare met with repeated failures in seeking relief. We are happy to state that we have cured hundreds of cases after other physicia's had pronounced them hopel-ss, tharges moderate and within the reach of all.

Fatients living away from the city, who cannot conveniently call may describe their troub e by letter any have medicines sent to them, free from observation, to any part of the country.

## EVENTS IN MISSOULA

The Site of the Masonic Temple Practically Settled.

TALK WITH A HORSEMAN

A Fine Strike in the Curlew Extension-Prominent Citizens Visit the Fiathead County -- A Clever Boy's Fire Escape.

Special to the Standard

Missoula, May 6.—The site of the Masonic temple, which has been under discussion for a few days past, is practically sett.ed. The building will be erected on the northeast corner of Higgins avenue and Spruce streets. On Saturday evening sketches will be presented by archi-tects and a committee will be appointed to attend to the negotiation of loans, floating of bonds, etc. The building and furnishings are expected to cost \$80,000. While the temple will be an addition to Missoula's fine blocks, the greatest benefit to the public will arise from its containing a theater, a much felt want here.

The case of the State vs. H. L. Stewart, the drug clerk who administered medicine to Mrs. Kate Cornforth, who died about two weeks ago, has been set for trial in Judge Evans' court to-morrow at

Manager Mentrum of the M. M. company's liquor and cigar department reports that 50,000 cigars were sold last week exclusive of small orders.

The Mascot is presenting a good show this week. The "Ticket-of-Leave Man" is pleasing the audiences, as are also vari-

ous specialties.

The dress parades at Fort Missoula are well worth witnessing now. The music and drilling are excellent, and the fourmile drive to the post in the evening is in itself a pleasure.

A fine strike was made in the Curlew Extension, near Victor, on Saturday. Last year a shaft was sunk, but it was not on the lead. This spring another was started, and on Saturday, when at the depth of 10 feet, a three-foot vein of galena was The ore is about the same as that in the Curlew, which was the second Missonla county mine to declare a dividend.

The hoist in the Little Anaconda will be in place in two weeks. It is expected that by the end of the month the shaft will be down 100 feet, when cross-cutting will be commenced. In about 40 days the tunnel will intersect the shaft at a depth of 140

Lieutenant U. G. McAlexander and E. E. Hirshey, who for some time past have been studying law with Hon. W. M. Bickford, have been admitted to the bar.

H. D. Brown of Great Falls, owner of the running horses Olympia, Malcolm and Little Dan, was in the city to-day and left at 3 o'clock to visit the Daly ranch at Riverside. Thence he will return to Mis-soula and go to Walla Walla, where his horses have been wintered. For a few weeks past he has been traveling about and has met a number of horsemen. He says that many of them who own fine stables have signified an intention to enter the Montana races, and he predicts the best lot of meetings in the history of the circuit.

S. B. Lovejoy of Minneapolis, a mem-ber of the firm of Woods, Larson & Co., railroad contractors, arrived in the city

D. D. McMillan, for some time superintendent of the Iron Mountain mine, has been succeeded in that position by Mr. Forbes, formerly superintendent of the Jay Gould mine near Townsend.

Attorney E. E. Hershey has gone to Thompson Falls as United States commissioner in a land case in which Colonel Bradshaw and other Butte parties are in-

terested.
Col. J. C. Marshall, Hon. W. M. Bick ford, Hon. Frank G. Higgins, Frank W. McConnell and Judge George W. Reeves have gone to the Fiathead country on a business trip and will return next Tues-

Karl E. Meyer of San Francisco, farm agent of the American Fire Insurance company of Philadelphia, after spending two weeks in successful work among the farmers of this county leaves for Deer Lodge this evening.

Capt. James Kerr of Demersville is at the Missoula.

Hon. A. S. Blake of Victor is in the city. Martin Wolson is building a nice sevenroom brick residence on a lot in Bennett's addition, purchased from E. W. Schilling, who owns 40 acres there.

A 16-year-old boy, who formerly drove D. Edwards' baker wagon but whose name was not learned, left here last night for his home in Daguschanda, Pa., to sell a patent fire escape he has invented. The arrangement is a simple affair that works with a rope, and can be carried in a valise. He has been offered \$45,000 for it and goes home to make the sale. The boy himself has descended from a window in the fifth story with ease. The person using it sits in a strap working a lever regulates

the speed of descent. Henry Gill was brought from Bonner to St. Patrick's hospital with his shoulder blade broken by a blow from a log carriage. While the injury is serious, he

will recover. Lamb, the prisoner sick with a disease resembling small-pox in appearance, is reported worse to-day. It is not yet determined what the trouble is, but many people believe he dosed himself, hoping to be removed from the jail and given a chance to escape. He is now at the poor farm, but not likely to get away.

E. E. Hackett and C. B. Mahony re-turned from the Gowrie mine to-night. They say a ledge has not been struck, as rted yesterday, but ledge matter con-

reported yesterday, but leage matter con-taining some ore.

D. M. Carr, for 18 months past city and telegraph editor of the Missoulian, leaves to-morrow morning for Anaconia to be-come telegraph editor of the STANDARD.

## SPANISH-AMERICAN TREATY.

It Is Expected That It Will Be Signed and Enforced Immediately.

MADRID, May 6 -A draft of the treaty between Spain and the United States was sent to the Spanish minister at Washington last week with instructions to sign it immediately. It is expected the necessignatures will be appended by the end of this week. Although the Spanish government maintains the utmost rerve, information from a reliable source confirms the report that coal, petroleum,

NOT PRESIDENTIAL TIMBER. Carter Has a 10w Pointers to Give About

WASHINGTON, May 6.—Commissioner Carter of the general land office with the approval of Secretary Noble has issued to the registers and receivers an important circular letter of instructions which shall govern in carrying into effect the sections of the general land act of March 3, 1891, relating to the cutting of timber from the public lands. These sections only apply to the states of Colorado, Montana, Idaho, North Dakota, South Dakota, Wyoming and Nevada, the territory of Utah and the district of Alaska.

The important features of the circular are the following: "Settlers upon the public lands, miners, farmers and other bonafide residents in either of the states district or territory named in this act who have not a sufficient supply of timber on their own claims or lands for fire wood, fencing or building purposes, or for the necessary uses in developing mineral or other natural resources of the lands owned or occupied by them are permitted to procure timber from the public lands strictly for the purposes enumerated in this section, but not for sale or disposal or use on other lands or by other person -; but this section shall not be considered to give the right to cut timber on any appropriated or reserved public lands; and the secretary of the interior has reserved the right prescribed to revoke such priv-

Persons, firms or corporations who desire to cut timber from the public lands for the purpose of merchandise or for any other use whatever other than as defined in sections 2, 3 and 4 of these regulations, must first submit an application therefore in writing to the secretary of the interior designating the lands by sections, townships and range if surveyed, and if unsurveyed, describing the lands by natural boundaries and the estimated number of acres therein. They must also define the character of the land and the trees or timber growing thereon, giving an estimate as to the quantity of .each kind, stating which particular kind or kinds they desire authority to cut or remove, and the specified purpose or pur-poses for which the timber or product therefore is required. The application must be sworn to and witnessed by not less than four responsible citizens of the state, district or territory in which the land is situated and who reside in the locality of the particular land described. The petitioner or petitioners should also submit with the application such evidence as can be procured to conclusively show the preservation of the trees or timber on the land described is not required for the public good, but that its use as lumber or other product and for the purpose named in the application is a public necessity, and if deemed for the public interest the desired permission will be granted. In order that farmers who desire to have the forests preserved in the interest of water supply for irrigation and that all other parties having adverse interests may have due notice of such applications, the parties making the application shall cause to be published at least once a week for three consecutive weeks in a newspaper of general circulation in the state, district or territory, and also a newspaper in the county where there is more than one county in each of the counties wherein the lands are situated, and a printed copy of the published notices must be submitted with the affidavit of the publisher or foreman

times and the dates thereof. The cutting or removing of any timber from the public lands described in the application by or for the applicant before authority has been officially granted by the secretary of the interior will render the party so offending liable to prosecution for tresspass and subject his application to rejection. Saw mill owners, timber dealers and others who in any manner cause or procure timber to be cut or removed from public lands in violation of law and of these rules and regulations, whether directly or by men in their employ or indirectly through contract or by purchase, are equally guilty of trespass with the individuals who actually cut or remove such timber and are alike liable to criminal prosecution.

### DOCTORS IN SESSION. The National Association Is Meeting in

Washington. WASHINGTON, May 6 .- The American Medical association was called to order this morning by Dr. Patterson of Washington, chairman of the committee on local arrangement. President Dr. Briggs of Nashville, Tenn, delivered the opening address. In substance he said; "Physicians should recogn ze no geographical boundary lines. The good of the human race was the great object of all the physicians in the American medical association. Beyond uniting the physicians of the country the association helped to spread knowledge throughout the world. It gave the medical world that esprit de corps and code of ethics which form the golden rule of medicine. Two great objects are continually before this association-to encourage instruction in medicine and to elevate the standard of medical education and medical men. The great cry was for a higher grade of education, and when this has been reached then the American Medical association should congratulate itself upon having achieved one of its chief objects. But though moral suasion and not correction was the principal of action, yet the time was coming when the beislative power should be given this ody by which it might act with authority for the whole profession of the United States. Let us ask these members who shook away from us to come back that harmony and peace should be the rule without exception. The result of the American Med cal College association ought in every way to be upheld and those coileges which refused that constitution ought to have their members made incligible to the American Medical association.

Dr. Briggs then begged that all transactions should be done in harmony and with success and closed amid the warmest applause. A vote of thanks was given the president and a committee of five was appointed to take charge of the address and report in regard to the serments therein contained, Friday next.

## Death of an Old Forty-Niner,

BOSTON, May 6.-General J. F. R. Marshall died at Kendall Green, Mass., tomachinery and fats will be admitted free into Cuba and Porto Rico, and the present duty on flour will be reduced one-half in exchange for free admission in the United States of sugar, coffee and cocoa. day. He has been manager of the Hamp-

HARRISON IN WASHINGTON. He Takes in Both Seattle and Tacoma

Yesterday. TACOMA, Wash., May 6.—The president and party entered Washington in a driving rain storm, which greatly interfered with arrangements for his reception at various stations along the road. At Tacome the train was met by the governor and a committee of citizens. His address of welcome was made by Governor Ferry and the mayor, to which the president briefly responded.

SEATTLE, May 6.-The presidential party made a trip from Tacoma to Seattle on the steamboat City of Seattle, escorted by four other steamers. On her arrival here the docks and roofs of buildings and vessels were found thronged with people hose enthusiasm found vent in prolonged cheering.

After disembarking from the steamer, the party visited Lake Washington, and after the trip there returned to the Uni-versity Campus, where a large throng had gathered. One of the features of the gathering was over a score of old men who voted for the president's grandfather in 1849. Judge Burke delivered an address of welcome, and the president responded briefly.

TACOMA, Wash., May 6.-The Presidential party arrived from Seattle this evening and left in a short time for Port-

GOULD GAVE 'EM TAFFY.

The Western Traffic Association is Patching Things Up,

New YORK, May 6.—The advisory board of the Western Traffic association began its session this morning. All lines were represented except the Southern Pacific. The great question as to what should be done with Jay Gould and Traffic Manager Leeds of the Mis-souri Pacific, and the cut in the sugar rate matter was handled gingerly and, so far as the outside public is concerned, with the most discreet silence. Gould was penitential enough and said he was will-ing to abide by the board's decision. Leeds had a long statement prepared, the reading of which was not concluded at the time of the adjournment. Peace and harmony seems to be the motto of every member, and those of the members who would talk to-night were unanimous in saying there would be no trouble.

Negroes Are Excluded, PITTSBURG, May 6.—At the national convention of the machinists to-day, the Southern element was in power, and by a vote of 89 to 29 it was decided to exclude the negroes from the association. A resolution was introduced making May 1, 1892, the date of the strike for shorter hours. The association was made international, Canada having asked admission.

Heavy Frosts in Central Kentucky. LOUISVILLE, May 6 .- The frosts of last right did considerable damage in central Kentucky. Commissioner of Agriculture Wilson says in the bulletin: and grapes were damage I and there was some damage to wheat and corn."

STOCKS AND BONDS. Up and Downs in Market Values on the

Stock Exchange. NEW YORK, May 6.-The waiting attitude of the stock market was more fully exemplified to-day and although there was a fairly active business in a few leading shares, there were only the usual narrow movements of prices. The tend-ency in the forenoon was downward, but this was reversed later in the day, when reassuring news from the conference was received. The close was quiet and strong, at the highest prices of the day. The final changes were generally small factional advances, while there are a few teclines.

Mental Strain.

This nineteenth century is characterized by the croweing of what should be forty eight hours work into every twenty-four. The bysiness men of this country are actually living two days in one. Our best authorities on this subjust are emphatic. It is not dissipation nor the wilful disobedience of any particular law of nature which throws the physical body a wreck upon the shore of life, but OVERWORK added to MENTAL STRAIN. It is the ever burning desire to get rich that the business man is a save to, and day by day he crowds and jostles, and elbows his way through the surging throng of humanity on his hastening journey to the grave. Broken down constitutions, from which arise a multifude of ailments, followed by a train of diseases soon takes them for m this busy stage of action. It is time to call a halt while 1 is still day, find look well to atternoon of life with a weil preserved physique, that the enjoyments thereof, may be the legacy of a ripe old age. All of those troubles known as broken down constitutions and nervous prostrations, wearing out, business lineapacity, are treated with remarkable success by Dr Cole. Man's lost vigor from overwork are a mental strain completely restored by his rejuvenating methods of treatment. If you find that you are lagging in the harness and you are compelled to take stimulants to keep up with the procession of life, you are sadiy in nee, of a life-giving source that will build you up and revitalize your whole constitution. If this is your condition consult Dr. Cole at once. AIR COMPRESSORS—Rand and Burleigh. PUMPS, MINING CARS AND BUCKETS.
